No. 1 (August 2003)

SILVA, J. C., SHABALINA, S. A., HARRIS, D. G., SPOUGE, J. L. *and* KONDRASHOV, A. S. Conserved fragments of transposable elements in intergenic regions: evidence for widespread recruitment of MIR- and L2-derived sequences within the mouse and human genomes 1

SZAFRANIEC, K., WLOCH, D. M., SLIWA, P., BORTS, R. H. *and* KORONA, R. Small fitness effects and weak genetic interactions between deleterious mutations in heterozygous loci of the yeast *Saccharomyces cerevisiae* 19

TSUTSUMI, M., KOGA, A. *and* HORI, H. Long and short mRNAs transcribed from the medaka fish transposon *Tol2* respectively exert positive and negative effects on excision 33

LIU, R., FERRENBERG, A. M., GILLILAND, L. U., MEAGHER, R. B. *and* ASMUSSEN, M. A. Detection of deleterious genotypes in multigenerational studies. III. Estimation of selection components in highly selfing populations 41

JAFFRÉZIC, F., THOMPSON, R. *and* HILL, W. G. Structured antedependence models for genetic analysis of repeated measures on multiple quantitative traits 55

RÖNNEGARD, L. *and* WOOLLIAMS, J. A. Predicted rates of inbreeding with additive maternal effects 67

BOOK REVIEWS

Zebrafish: A Practical Approach. *Eds. C. Nüsslein-Volhard and R. Dahm* V. T. Cunliffe 79

Reshaping Life: Key Issues in Genetic Engineering. *G. J. V. Nossal and R. L. Coppel* J. Hodgkin 80

Ageless Quest: One Scientist's Search for Genes that Prolong Youth. *L. Guarente* B. Charlesworth 81

Seeds of Concern: The genetic manipulation of plants. *D. R. Murray* A. Trewavas 82

No. 2 (October 2003)

PRÉCLIN, V., MARTIN, E. *and* SÉGALAT, L. Target sequences of Tc1, Tc3 and Tc5 transposons of *Caenorhabditis elegans* 85

RICHMAN, A. D., HERRERA, L. G., NASH, D. *and* SCHIERUP, M. H. Relative roles of mutation and recombination in generating allelic polymorphism at an MHC class II locus in *Peromyscus maniculatus* 89

YI, S. *and* CHARLESWORTH, B. Unusual pattern of single nucleotide polymorphism at the *exuperantia2* locus of *Drosophila pseudoobscura* 101

PARNES, S., KHALAILA, I., HULATA, G. *and* SAGI, A. Sex determination in crayfish: are intersex *Cherax quadricarinatus* (Decapoda, Parastacidae) genetically females? 107

CIVETTA, A. *and* CANTOR, E. J. F. The genetics of mating recognition between *Drosophila simulans* and *D. sechellia* 117

XU, S., YI, N., BURKE, D., GALECKI, A. *and* MILLER, R. A. An EM algorithm for mapping binary disease loci: application to fibrosarcoma in a four-way cross mouse family 127

CORNFORTH, T. W. *and* LONG, A. D. Inferences regarding the numbers and locations of QTLs under multiple-QTL models using interval mapping and composite interval mapping 139

BOOK REVIEWS

Microarray Gene Expression Data Analysis: A Beginners Guide. *H. C. Causton, J. Quackenbush and A. Brazma* S. Russell 151

The Origin of Species: Revisited. *D. R. Forsdyke* B. Charlesworth 152
